

JULINGTON DENTAL

Family and Cosmetic Dentistry

- Dental practice website design
- Search Engine Optimization (SEO) – first page of Google multiple keywords
- 215% increase in monthly website visits
- 500% increase in the number of keywords within the top 3 results
- Increased patient leads
- Increased dental appointments

Results

Dr. Spiegel and Dr. Bodor have seen a steady increase in their practice's bottom line, invested in a suite of high-tech equipment, upgraded their practice and hired additional staff.

Conclusion

Strategic planning, implementation and proactive brand building has taken this dental practice from just starting to absolutely thriving! Never underestimate the power of SEO and digital visibility.

"After searching through the many website-designer-services, and being disappointed with a large, specialty company, I came across BCP Design. Not only were their fees much less than their competitors, but their service was more efficient and tailored than I had previously experienced.

In addition, they have always been available for tutorials and help when such has been needed. I highly recommend BCP Design for their website design and SEO services and would urge anyone in the market to give them a try."

Sincerely,
Jason Speigel, DMD
